🌟 Key Performance Indicators (KPIs)

- Net Sales & Total Sales: Net sales reached $2.12M out of a total sales figure of $2.30M.

- Net Profit:: The store recorded a net profit of $263.18K with an overall profit margin of 12.44%.

- Order & Quantity Metrics: A total of 38K items were sold across 5,009 orders, with a return rate of 5.91% (totaling 296 returned orders).

- **Strategic Findings & Key Insights**

- Geographic Concentration: Approximately 50% of sales originate from five major states, with the West and East regions leading net sales at $0.82M and $0.76M , respectively.

- Category Performance: Technology and Office Supplies drive major sales volume, while certain sub-categories in Furniture (such as Tables) experience negative profit margins down to -8.78%.

- Customer Segmentation: The Consumer segment is the largest sales contributor at$1.1M, followed by Corporate and Home Office. Top-tier customers (top 20%) generate $216.61K in profit, maintaining an Average Order Value (AOV) ranging between $449.11 and $472.36.

- Discount Impact: The average discount sits at 15.62%. Uncontrolled or excessive discounting heavily compresses profit margins on specific sub-categories.

- Return Rates: The West region experiences the highest return rate at 11.73%. Sub-categories like Machines and Tables show elevated return vulnerabilities ranging between 9.77% and 11.61%.
